...and more!

Wi-Fi
The Kemp Ogden Airport Gateway Center has Wi-Fi available for public use. The network, however, is not designed for 150+ people to access the network simultaneously. Feel free to access the network if necessary, but know that speeds may not facilitate downloading large files or large amounts of streaming.

Wi-Fi Network: Banquet　**Password**: airplane

Breakout Sessions
Each of the seven (7) breakout sessions will be held twice: once from 3:30-4:00 p.m. and once from 4:00-4:30 p.m. If you've not registered already, please visit **bit.ly/2lYyW9c** to select your preferred session for each time slot. Each session will accomodate 27 attendees. If you attempt to register for a session and find it unavailable, this means the session has already reached its attendee limit.
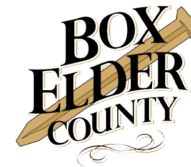

Attendee List
We've made a list available for everyone detailing each attendee registered for the conference. Contact information has been removed for the sake of privacy, but names and companies have been provided for the sake of networking. This list is available at **bit.ly/2kVM4vw**.

Social Media
Please, feel free to post about the Utah UAS Summit! Should you do so, we encourage you to use the hashtags **#UtahUAS** and **#OgdenUAS** in your posts so all attendees' posts will be connected with and visible through a common thread.

Thank you to our exhibitors and demonstrators for helping to make this event a success!

The Future of Personal Transportation...has arrived!

Welcome, Members of
AUVSI MOUNTAIN WEST
