

# OGD UPDATES, & OTHER AIRPORT EVENTS

## OGDEN AIRPORT ADVISORY COMMITTEE MEETING

The next upcoming meeting of the OGD Airport Advisory Committee will be on Wednesday April 12, 2023 at the Ogden City Municipal Building, Third Floor - City Council Workroom. The meeting will begin at 6pm.

## CB AVIATION'S SELF-SERVICE AVGAS PUMPS

CB's self-service AvGAS pump is back up and running. Fuel is available here 24/7/365 and at a \$0.20 per gallon discount from the retail price.

## OGDEN AIRPORT TERMINAL BUILDING - REMODEL

The Airport is very close to being able to commence the new project to remodel the 1950 Airport Terminal Building. This project will be accomplished in two separate phases. Phase One will concentrate of the east front of the terminal building. It will:

1. Widen the Terminal Access Road both entering and exiting vehicle traffic.
2. Remove the existing round-a-bout and replacement it with multiple one-way lanes for loading and unloading with a crosswalk and dividing island
3. New underground conduit will be installed to allow future electrical services in the public pay parking lot, such as lighting.
4. Construct a new baggage claim room on the east facing front of the terminal building
5. Inside the new baggage claim room, there will be room for three car rental companies, a baggage office, an information counter, and a family restroom.
6. The two existing ADA restrooms will be removed to allow for a new fire-code

required exit path out of the building

7. Two new ADA restrooms will be constructed where the previous Hertz Car Rental Counter was.

8. The old OGD Airport Administrative Offices will be demolished and replaced with multiple airline check-in ticket counters and the roller tables used to move the airline passenger checked baggage to TSA screening.

9. The lobby area underlying tile has tested positive for asbestos and all will be removed and properly dealt with.

10. All lead based paint will be removed and properly dealt with.

11. The new TSA passenger screening checkpoint will be constructed

12. The terminal building basement will be demolished and a large open meeting room will be constructed.

13. Two basement restrooms will be restored and remodeled.

14. The beginning structural work for a three landing elevator will be constructed. The elevator itself will be installed in Phase Two.

15. The Bickering Sisters Restaurant will remain open and operating during the full construction process, however, walk-in access will come from the south side of the terminal building and in through the back of the restaurant. This will only occur while the front baggage claim area is being constructed. Please go out of your way to support Karen and her restaurant.

Please "pardon our dust" during this construction. The work on Phase One should be complete in mid-2024 when we hope to have our airline service back. Progress on this project and other OGD Airport projects can be found on the Airport's webpage: <https://www.ogdencity.com/2041/Projects>

Thanks for listening and supporting the Ogden Regional Airport.
