

Ogden City Corporation
Request for Proposal
Engineering Services Pool [Civil Engineering & Facility Projects –
Building Inspection Services]

Q & A

1. The RFP requests we provide “A chronological list of “In progress” and “Completed” projects accomplished by local (Northern State) office or representative for previous 3 years including references; include project name, address, owner, contact name and current telephone number.” Our firm has a large volume of projects completed or still in progress within the requested time frame, some of which are confidential. Will the city accept an abbreviated list containing projects that are relevant to the services we will be proposing on?
 - a. The City will accept an abbreviated list of projects that are relevant to the services you will be proposing.
 - b. We would also like to encourage all firms to submit a diverse range of projects, including both "In Progress" and "Completed" projects, for each category, to best demonstrate the breadth of your experience and expertise.
