Planning

- [Wall Avenue Corridor Plan](#): We held a very well attended workshop on the Wall Avenue corridor plan last Wednesday evening. The plan seeks to create better connections across Wall Avenue between downtown and Union Station while maintaining traffic flow. The plan also considers improvements along the full length of Wall Avenue. About 60 people attended and shared ideas about how to best make Wall Ave. a safe multi-modal corridor.
- [Board of Zoning Adjustment](#): The board met last week to consider two variance requests. One was for lot width, and one was for setbacks. The board approved both.
- [Landmarks Commission](#): The Landmarks Commission met last week. They approved a sign on 25th Street. They also denied a request from a neighbor to make a 1960's era nursing home a historic landmark.
- [Concept Review Team](#): A great article about our initial support process for new business and developer projects can be reviewed at:
