### Applicant

Description: I want to add a fence on the the rear of my property. There is a fence currently, but I would like to add my own fence that is to built to my liking and specifications. I am not touching or removing the neighbors fence, but building a new one on the edge of my property (per his request). I was going to use a combination of wood posts, metal brackets, and horizontal wood planks. I know getting it to the 7 foot mark would be difficult with vertical wood slats, so I wanted to do them horizontal to control the height a little easier. I wanted to put some sort of metal cross pieces on a few sections to make a Lattice that will hold vines or plants of some sort. Just to add some green to the fence line.

Valuation: **\$2000.00**  
Total Sq Feet:
