

**Ogden City Corporation**  
**Request for Proposal**

**UPS Modernization, Consolidation, and Replacement Project**

**Q & A**

---

1. Can you please answer questions highlighted in red on the attached spreadsheet? Can you also please confirm available network port at each location specified within RFP?
  - a. *Without going out to each site to verify, we can confirm that almost all are networked, and the majority is on a network rack. It's hard to give an exact answer without going to each site to confirm.*
  - b. *Also, for the trailers, those are already on a monitored system and just need to be added to the list so no measurements should be required.*
  - c. *Finally, note that Ogden City is not replacing any batteries at the beginning of this project nor are we looking for any PM work, only ongoing replacements as needed and monitoring capabilities.*
