

# The H2O Song

Tune: Fresh Prince of BelAir

Here's a little story 'bout H2O  
You turn on the faucet and then it flows  
Don't worry about water, it's always there  
After all, this big 'ole earth's got water everywhere.  
Naaaaw, do do do do, NaNaNaNaNaNa

Here is the truth 'bout what you see  
Not all water on the earth can be used for you and me  
1% of freshwater is all we got  
Gee, looking at the globe I thought we had a lot!  
Naaaaw, do do do do, NaNaNaNaNaNa

Here's some simple ways to *slow-the-flow*  
Let's take a look around, come on let's go....  
Naaaaw, do do do do, NaNaNaNaNaNa

Hey you over there, collect that water  
You can use it later, while you wait for the tap water to get hotter  
Naaaaw, do do do do, NaNaNaNaNaNa

Come on let's go....  
Naaaaw, do do do do, NaNaNaNaNaNa

Don't wash your truck with that big hose  
Grab a bucket full of water, so everybody knows  
Saving water is the only way to be  
From all of your friends from Ogden City  
Naaaaw, do do do do, NaNaNaNaNaNa

Ogden City – The future lies in our water. Conserver our precious H2O.
